Winter School in Clinical Epidemiology

15-20 February 2016

Early Booking Deadline 30 November 2015

Dear Colleagues,

We are pleased to announce our **6-Day Certified Course "Winter School in Clinical Epidemiology", Feb 15-20, 2016** to be held in Tyrol, Austria.

Course Directors:

Uwe Siebert, MD, MPH, MSc, ScD Professor of Public Health, UMIT

Prof. Albert Hofman, MD, PhD Professor of Epidemiology, Erasmus University

The Winter School in Clinical Epidemiology will give you a comprehensive overview of epidemiologic principles and methods to problems encountered in public health and clinical medicine. It provides important information for clinicians and health policy makers in order to identify risk factors for diseases and to determine optimal preventive, diagnostic and therapeutic strategies for individuals and populations.

The course combines lectures, discussions and case study group work within its 6 days. Main lecturer of this course will be Prof. Albert Hofman – Professor of Epidemiology (Erasmus University), Adjunct Professor of Epidemiology (Harvard University).

The Program covers the following subjects:

- Public health areas and methodological approaches
- Key epidemiological concepts
- Determinants of disease, disease risk
- Prognosis studies, retrospective studies
- Treatment efficacy, clinical trials
- Treatment safety
- Diagnosis and decision analysis in public health and medicine

Online booking for this course is available via www.umat.at/htads/

Group Registrations - Save 15%

Register with three or more colleagues and save

Kind regards,

Prof. Dr. Uwe Siebert, MPH, MSc (Course Director)
Dr. Ursula Rochau (Course Coordinator)
Vjollca Qerimi (Course Co-Coordinator)

This course is part of the International HTADS Continuing Education Program developed by the Institute of Public Health, Medical Decision Making and Health Technology Assessment, Department of Public Health and Health Technology Assessment (Chair: Prof. Dr. Uwe Siebert) at UMIT. The HTADS Program was designed to provide excellent quality education and comprehensive training in the key issues of Health Technology Assessment (HTA) and Decision Sciences (DS) for anyone involved in the health sector. Detailed information about our courses and study programs is available at www.umat.at/htads, via e-mail htads-epi@umat.at or by phone +43 (0)50 8648-4022.

Introduction to Health Technology Assessment

Module 1

Introduction to Health Technology assessment takes place Spring 2016 and covers the key elements and methods of HTA and DS with a combination of lectures, discussions, case study group work and hands-on computer lab sessions. For more information please [click here](#).

Modeling Approaches for HTA: A Practical Hands-on Workshop

Module 3

Modeling Approaches for HTA: A Practical Hands-On Workshop will take place Spring 2016. It provides an overview on five different modeling techniques applied in Public Health with an emphasis on real world case examples from different acute and chronic diseases. For more information
